## BUILD YOUR LOG HOME FOR AS LITTLE AS A CONVENTIONAL HOUSE

Introducing the Anthony **PowerLog®**, the driest, strongest and most stable log on the market. Even drier than the studs and framing lumber used to build the conventional parts of your home. A drier log means no more expensive settling systems or allowances for settling. Just as important, the **Powerlog®** virtually eliminates splits, checks, twists, and warps. This results in a log home that is easy to build, easy to live in, and easy to maintain.
